

# Bruce ATS now available via Colt PrizmNet

## Datasheets

capital markets

### Unlock overnight access to U.S equities – anytime, anywhere

Colt Technology Services has partnered with Bruce Markets LLC to extend trading hours and enhance global market access for Colt's clients. This strategic partnership combines Colt's ultra-low-latency connectivity with Bruce ATS, an Alternative Trading System (ATS) – delivering greater flexibility, efficiency and 24x5 trading capabilities for financial institutions worldwide. Customers gain secure access to U.S. Reg NMS securities, operating from 8:00 PM to 4:00 AM ET, Sunday through to Friday, aligning perfectly with Asian and European business hours.

### Why Bruce ATS via Colt PrizmNet

The expansion to 24x5 trading supports three key market segments:

- Retail brokers looking to extend service hours and meet global demands
- Market makers seeking richer cross-time zone data and trading opportunities
- Data vendors integrating Bruce ATS feeds for broader market coverage

With growing demand for real-time trading across time zones, institutional clients need a solution that allows them to act quickly to market-moving events during Asian and European business hours. From earnings releases, geopolitical shifts, or macroeconomic updates outside of the traditional US trading window, Bruce ATS via PrizmNet empowers customers to respond instantly and stay ahead of the curve.

### Market data access that keeps you ahead

#### Bruce last sale

- Real-time trade execution data for all securities traded on Bruce ATS from 8:00 PM to 4:00 AM ET – giving you real time access into market activity as it happens

#### Bruce best bid and offer

- Instant snapshots of top-of-book liquidity throughout the overnight session – helping you assess pricing with confidence

#### Bruce depth of book

- Full order book transparency across all price levels – enabling deeper market insights and more precise trading strategies

### Why Colt?

With over 30 years of experience in financial services and access to the world's leading global exchanges and trading venues, plus connectivity to 10,000+ financial institutions, PrizmNet ensures your trading infrastructure is ready for 24x7 market access. Our solutions are designed to reduce risk and complexity and accelerate your time to market with rapid implementation, end-to-end SLAs, flexible contracts and service-based pricing.

Whether you're expanding into new regions or responding to overnight market events, our Bruce ATS via PrizmNet offering delivers the ultra-low-latency, performance and global reach needed to stay competitive. Key benefits include:

- **Global reach:** Colt's Capital Markets network spans Europe, North America, and Asia-Pacific, enabling seamless connectivity to traditional exchanges, liquidity venues, and cloud providers
- **High performance infrastructure:** Ultra-low-latency connections delivered over Colt's dedicated resilient fibre network, connecting to major financial centres globally
- **U.S. market connectivity:** Direct connectivity to major U.S. venues such as Nasdaq, NYSE, and OPRA, with cloud-based options via AWS for flexible deployment
- **Rapid deployment:** Pre-connected market access enables financial institutions to connect Bruce ATS and other trading venues quickly – reducing time to market and accelerating opportunity capture
- **Global connectivity:** Institutions can connect from any global financial centre worldwide and immediately access Bruce ATS services without the need to source or manage direct connections
- **24x7 trading support:** Colt supports continuous trading connectivity, providing resilient market infrastructure
- **Self-service management:** The PrizmNet Online portal empowers institutions to independently manage connections, provision new services, and optimise network configurations
